Example: Quantity 100 + 2 Names = 100 business cards per name.

Artwork specifications and FAQs

If you are sending us pages or artwork it must be prepared correctly. Below outlines what is required, but the person, department or agency your company uses to create these items will be familiar with the requirements explained in this document.

If you have any further questions, please do not hesitate in contacting your Sales Executive.

PDFs

Files to be supplied in correct size, with all fonts embedded. All images are CYMK or greyscale at least 300dpi. PDFs are generated using the "Press Quality" Setting in InDesign, Illustrator or Acrobat. Please include trim marks and allow 3mm bleed all round.

Spot Colours / Pantones / RGB

Please make sure any spot colours are converted to CMYK.

Please convert all RGB colours and images to CMYK before creating the PDF. Remember that the nice bright colours achievable in RGB are not always possible in CMYK. It is better for you to convert to CMYK at your end and see any unwanted colour shifts rather than see it on the final product when it is too late.

TIFFs or JPEG

This option is only recommended as a last resort, if you are unable to create a PDF. To keep the text clear and crisp, make sure that the resolution is set to 450dpi. If you are creating a JPEG then make sure that you set the quality to "highest" or whatever the highest quality setting is. Ideally use CMYK rather than RGB when creating your file.

Proofing and proof reading

A proof is produced to check that your artwork is technically capable of being printed and highlight any last minute issues. We don't proof read your files, we will not check spellings or content. It is your responsibility to provide correct artwork and to sign off any proofs provided for final print.

Is artwork included in the price?

The prices you see in this brochure are from your finished artwork. That price does not include any creative work to produce the artwork. In addition any amendments and corrections to your artwork are not included in the prices shown. We're happy to help you with design or make changes but this will be an extra cost.

I want to cancel my order. Will I get a full refund?

If you want to cancel an order, please let us know as soon as possible by calling us on 01604 671671. We will only charge for any materials we've used up to that point.

I'm not happy with my order. What do I do?

If you're not delighted with your order, please call us 01604 671671 so we can put things right for you.

Delivery

Delivery of your print to one UK address is included in the price. Express delivery is available, please contact your Sales Executive for more details.
